

Mechanical Engineer (m/f/d)

Research & Development

Full-time

Dubai (UAE)

The Leader of the Pack!

WOLFFKRAN is an internationally active European manufacturer, lessor and service provider of tower cranes. As a technology and quality leader, we develop the optimum solution for every customer and every construction site. We achieve this with dedicated employees who work on continuous innovation and strategic expansion.

If you want to be part of this dynamic environment, act on your own responsibility and continuously develop yourself, then become a member of the WOLFFKRAN Family.

What tasks await you?

- Structural design of cranes and components, taking into account the specified static boundary conditions and applicable standards/guidelines
- Creation of CAD models, production drawings and Bill of materials
- Article maintenance
- Serial support

What is your job profile?

- Training as a technical product designer or Degree in mechanical engineering (B.Eng.) – focus on steel construction
- Confident handling of a 3D system (preferably Solid Edge), PDM system (preferably Teamcenter), ERP system (preferably SAP) and common MS Office products
- Knowledge of English and preferably German
- 2-3 years of professional experience (ideally in the construction or special machine sector)

Does this sound interesting to you? Then please apply directly, stating your earliest possible starting date and your salary expectations. Please use the "Apply now" button or go to our careers page at www.wolffkran.com.
